I don’t want to Walk home

Harry is an old man. After having his dinner, he enjoys taking a walk in the street. After that he usually goes to sleep after he is done walking, which is around 8 o’clock.

However, tonight, a police car stopped at his house and the policeman told his wife that he couldn’t find his way home tonight. He says that Harry asked him to take him with the car. After the policeman is gone, his wife asks “Harry, you go to the street every night, how come you couldn’t find the way tonight?”

Harry smiles and answers “I couldn’t find my way because I didn’t want to walk home.”
